

Premed

PREMED STUDENTS Scholars Program in Organic Chemistry (SPOC)

A

A new ten week program at UT Southwestern that offers college students an opportunity to learn organic chemistry in a controlled environment with an innovative and exciting approach

- ☼ Students will be paired with a physician for clinical shadowing opportunities during the ten week program
- ☼ Begins June 1, 2010 through August 5, 2010
- ☼ Summer stipend provided for participants

QUALIFICATIONS

- ☼ Underrepresented Minority* or Disadvantaged** undergraduates who will have completed general chemistry in college by June 2010
- ☼ SAT score between 1500 and 1900 or ACT score between 20 and 27
- ☼ SAT or ACT scores outside this range may apply, but will be given a lower priority
- ☼ Minimum GPA 3.0
- ☼ Must NOT have taken organic chemistry in college
- ☼ Participants responsible for locating their own housing in the Dallas-Fort Worth area during the summer of 2010 (housing not provided by UT Southwestern)

Application Deadline January 29, 2010

* Underrepresented minority students are defined as designated by the American Association of Medical Colleges as being underrepresented in medicine as compared to their proportion representation in the general population (African-American, Hispanic, Mainland Puerto Rican, Native American [American Indian, Native Alaskan and Native Hawaiian]).

** Disadvantaged students are defined as designated by the Texas Joint Admissions Medical Program as financial eligibility for Pell grant and/or an Estimated Family Contribution (EFC) up to \$8000 unless other evidence of economic disadvantage status exists.
